

EXECUTIVE PROFILE

Operator-technologist who makes complex work visible and builds mechanisms that turn emerging technology into adopted, measurable outcomes. Brings direct leadership across AI-enabled operations, agentic workflow design, high-reliability engineering, telemetry-driven decision systems, customer-backward scale, technical-team development, and cross-functional execution. Targeting GoDaddy's challenge of connecting personalization, agent authority, global platform discipline, rapid experimentation, and entrepreneur momentum.

ROLE-ALIGNED CAPABILITIES

AI/ML operating roadmaps	Agentic workflow design	Human authority and escalation
Experimentation and evaluation	Telemetry and observability	Technical team leadership
Customer-backward mechanisms	Quality, governance, and risk	Cross-platform integration

SELECTED LEADERSHIP EXPERIENCE

Vape-Jet - Director of Operations

2025-Present

- Lead AI-first operating transformation across production, purchasing, quality, customer success, support, engineering issue flow, ERP/Odoo, Jira, HubSpot, Slack, telemetry, and AI-assisted workflows.
- Connect factory, field, customer, and machine-fleet signals into prioritized work, earlier risk detection, cleaner handoffs, dashboards, standard work, training, and accountability.
- Operate in a software-enabled robotics and machine-vision environment with approximately 1,000 fielded robots informing support and operating feedback loops.

DudeWorth - Founder / AI and Automation Advisor

2017-Present

- Develop AI-readiness and opportunity frameworks evaluating value, feasibility, data readiness, governance, adoption burden, reuse, and time-to-value.
- Design agentic workflow patterns using structured context, retrieval, AI agents, human judgment, escalation, decision records, evaluation, and governance rails.
- Advise on AI-enabled operations, logistics technology, automation, transportation systems, network analysis, and workflow design; develop agentic operating-model concepts without presenting concepts as production deployments.

Amazon - Operations Management / Site Leader

2014-2018

- Led launch and execution for Amazon Prime Pittsburgh in a 24/7 customer-backward environment supporting approximately five million second-day orders annually.
- Built leadership routines, labor planning, throughput visibility, escalation paths, standard work, and operating mechanisms across safety, quality, throughput, customer experience, and team engagement.
- Contributed to logistics innovation through Prime Air research and Amazon Flex geolocation concepts.

Compunetics - Director of Operations and Engineering Management

2000-2013

- Led engineering, manufacturing, quality, customer delivery, and complex technical programs in advanced electronics and high-reliability environments.
- Built quality systems, standard work, root-cause practices, performance measures, and process controls; collaborated with high-consequence customers and partners including DoD, CERN, Intel, and AMD.

COMPLEMENTARY OPERATING DEPTH

Cardinal Building Products - Regional Director

2021-2023

- Built the company's first remote regional operation and modernized distributed customer, CRM, commercial, fulfillment, logistics, digital marketing, SEO, and online-buying workflows.
- Advanced AI-enhanced transportation-management and route-planning concepts.

ZeusVu - Chief Pilot, Autonomous Systems and Aerial Data Operations

2018-2022

- Led regulated drone operations across medical, energy, logistics, real-estate, and restricted-airspace contexts with a 100% safety record and no FAA incidents.
- Developed TensorFlow-based concepts for automated aerial inventory and computer-vision-enabled field intelligence; designed medical delivery and chain-of-custody concepts connecting technology, risk, stakeholders, and governed execution.

Enviro Social Capital - Chairman

2014-2017

- Co-founded and led a public-private initiative focused on sustainable infrastructure, green finance, and civic transformation.
- Helped shape and evaluate a \$200 million Social Impact Bond feasibility concept for Pittsburgh green-infrastructure improvement.

IEEE - CMPT and EDS Pittsburgh Chapter Chair

2012-2016

- Led regional technology programming connecting industry, academia, STEM outreach, electronics, manufacturing, and emerging technology.
- Organized conferences, seminars, business tours, and technical programming.

GODADDY MANDATE TRANSLATION

What transfers directly

- Technical and cross-functional team leadership
- High-reliability operating controls and root cause
- Customer-backward scale and measurable operating cadence
- Agentic workflow, human authority, evaluation, and governance design
- Telemetry, quality, support, and engineering signal integration

What remains a proof requirement

- Conventional 8+ year AI/ML leadership ladder
- Globally deployed recommendation and personalization portfolio
- Deep production ML/cloud framework ownership
- Confirmed Claude Code direct use and team adoption
- Advanced CS/ML/AI degree

EDUCATION, CREDENTIALS, AND TOOLKIT

University of Pittsburgh - Bachelor of Science

Academic grounding includes materials science, physical chemistry, and biology-related studies. Google Scholar: scholar.google.com/citations?user=yHQSvd8AAAAJ

Credentials

Google AI Essentials | IBM Enterprise Design Thinking Practitioner | Six Sigma Certification | OSHA 10

Technical and operating toolkit

Agentic AI, LLM workflows, RAG patterns, human-in-the-loop design, Python, SQL, JavaScript, TensorFlow, Tableau, ERP/ Odoo workflows, Jira, Confluence, HubSpot, Slack, GIS and mapping workflows.

Leadership posture

Decision systems, operating cadence, coaching, accountability, tactical empathy, direct problem work, and explicit escalation.
